HEROIC SCALE™ 25 mm Fantasy Figure Line

What can we say. This is simply the best 25mm fantasy figure line ever created! We call it our Heroic Scale™ line. Which is another way of saying, "way cool, very animated, extremely detailed, clean cast, low priced, bigger than life, hey it's from us" line. This year we have added some new sculptors to the line. We know both will add their own unique styles to Dark Heaven, and will help us continue to push Dark Heaven even further in excellence. Lets give a warm welcome to Dalton Jamison and Steve Saunders.

Shadow Corp is by far the best in the world of 15mm fantasy figures. Next up this year are the Orc armies. We've got mean Orc, nasty Orcs, even Orcs mounted on Scorpions! After the Orcs, later this year, we'll be releasing Unicorns, Pegasus, some Elementals, plus more additions to the Dwarven and Undead armies. More nasties for your games!

Now here is a 25mm SciFi figure line that kicks ass! The Official DOOM miniature line. Scare your friends with the Cyberdemon. It's an amazing 70mm tall! Check out the DOOM section of this catalogue for more info.

Between the far away past history and that which lies near, in the time when the wisdom of the ancients was dead and had passed away, when our own days of light had not yet come. There lay a great black period in history. A period of cruelty, and of wickedness. An age of decay, and death.

Alright marines, shut your trap and pay attention! What you are looking at right now are the official Heroic Scale™ recognition models of the slime hordes you'll be required to take down. These hellions come at you in droves so learn the strengths and weaknesses of each, and it just may save your ass! Better take the time to notice the differences between a Cacodemon and a Pain Elemental now punks, cause you won't have time later. Make a mistake, and your ugly mugs will be removed by a Lost Soul. Are you paying attention maggots?! Your sissy little marine asses better be ready for tomorrow's drop. "You are the blues," the nightmares of this galaxy! Let's put these slime dogs to bed! BATTLETECH®

*Where nature's laws threatened the weary;
When food, water even air itself ran low.
It took just a command, a word, a smile,
From the General to light the way.
He was comfort, stern courage, compassion
To our sires as he led them from the fires
That grew and fed on those they left behind*
